

Technical overview MEV-BPc

1.1. General description :

- Low-pressure centrifugal fan
- Impeller with blades curved forward
- Belt driven
- Use : aspiration of extremely dusty air
- Max. air temperature : 90°C (350°C with cooling fan)
- Models : from MEV-BPc 251 up to MEV-BPc 1001
- Available in execution 1, 9 or 12

1.2. Performances (15°C, 760 mmHg, 1,22 kg/m³, 50Hz) :
