

Technical overview MEV-TTRc

1.1. General description :

- Low and medium-pressure centrifugal fan
- Open blade impeller
- Special design for heavy-duty applications
- Belt driven
- Use : particularly suitable for aspiration of wood shavings, paper offcuts and filamentous material in general
- Max. air temperature : 90°C
- Models : from MEV-TTRc 561 up to MEV-TTRc 1601
- Available in execution 1, 9 or 12

1.2. Performances (15°C, 760 mmHg, 1,22 kg/m³, 50Hz) :
